## REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

In partnership with the community, Blackville-Hilda Junior High is educating students to become lifelong learners. However, our immediate focus is to prepare students to meet and successfully complete the requirements of a rigorous academic curriculum at the high school level. We continue to utilize the Anderson Five curriculum at the junior high school, insuring that courses are taught at a competitive level and that there is an atmosphere of high expectations for all students to achieve. The school leadership team and focus teams have been utilized to assist in the implementation and evaluation of best practices. Many programs were continued and others initiated. We continue to utilize data from standard assessments and local assessments to drive instruction. We are continuously striving to become a data-driven school.

This year was the implementation year for the nationally-researched program MMGW (Making Middle Grades Work). The focus areas implemented this year were utilization of data and rigor of instruction. Many of the key practices that were outlined in the model are currently being implemented in some form or fashion. Some key points of this model will emphasize that our goal is to provide extra help to students so failure is not an option, maintain high expectation for all students in classroom practices, and prepare students for the rigor of high school college preparatory courses by teaching students the essential concepts of the college preparatory curriculum.
